DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 04, 2005 has been entered.

Claim Objections

2. Claims 1, 4, 11, 14-17, and 20 are objected to because of the following informalities:

With respect to claim 1, in line 7, "said switch fabric types" and "the traffic" lack antecedent basis.

With respect to claim 4, in line 1, "The apparatus of claim 3" should be changed to - -The apparatus of claim 1 - - since claim 3 is already canceled.

With respect to claim 11, in line 8, "a packed switch" should be changed to - - the packet switch- - and in line 9, "a packet" should be changed to - -the packet- -.

With respect to claim 14, in line 1, "The method of claim 13" should be changed to - - The method of claim 11 - - since claim 13 is already canceled.

With respect to claims 15-17, in lines 1-2, "the step (C) of switching" should be changed to - -the step (D) of switching- - since previous step (C) has been relabeled as step (D).

With respect to claim 20, in lines 6-7, "said switch fabric types" and "the traffic" lack antecedent basis.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 4-8, 11, 14-17, 20-24, and 27-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claims 1, 11, 20, and 27, in lines 8-9, “allocate circuit switch resources to ATM and IP traffic in order to route traffic to packet switch fabric” is unclear because ATM and IP traffic are packet switch traffic therefore it is unclear why circuit switch resources are allocated to packet switch traffic when packet switch traffic are not routed to circuit switch fabrics. Further, in lines 10-11, “to one or the other of said circuit or packet switch fabrics” is unclear. It is unclear of what being claimed.

Claims 4-8, 14-17, 21-24, and 28-30 are rejected as they depend upon rejected independent claims 1, 11, 20, and 27.
